

## AMERICANS ALL OUT--ATTACK CHIHUAHUA EARLY TOMORROW

### RIVER NAVIGATION MOVEMENT STARTED

**Chamber of Commerce, Through Committee, Instructs J. M. Elder To Use Endeavors**

**For Favorable Action Regarding Improvement and Opening of the Mississippi to Grand Rapids**

A movement has been started by the Brainerd Chamber of Commerce that will mean more to the Cuyuna range and the agricultural interests of northern Minnesota than any other one thing provided the action desired can be accomplished.

J. M. Elder was recently appointed by Governor Burnquist as a member of the Minnesota delegation to the National Rivers and Harbors congress which meets in Washington on the 6th of the present month, the duties of which body are to consider and discuss improvements of inland waterways, and all subjects relative thereto as well as all matters relating to the improvement of harbors, etc. In connection with this appointment the Brainerd Chamber of Commerce instructed its committee on rivers and navigation to confer with Mr. Elder previous to his departure for Washington relative to the opening of the Mississippi river as far north as Grand Rapids and empowered the committee to urge upon him and the congress the necessities for this action and explain to them the benefits that would accrue, which would be of inestimable value to the state at large and the northern part in particular.

At the present time the river is navigable from the Gulf of Mexico to St. Paul and Minneapolis, and of late years traffic on the river has fallen off to that extent that the once profitable boat business had practically been abandoned. Within the past two or three years, however, there has been an effort made with some degree of success of reestablishing this artery of trade to the south and already inquiries are being made as to the prospects and tonnage that would be available if the river was made navigable so that the products of the mines and agricultural districts might seek this cheap means of outlet to the markets of the world.

The committee on rivers and navigation made known the claims as to the probable output and embodied in a resolution which will be given Mr. Elder for use at the meeting of the River and Harbor congress when he asks that some action along this line be taken.

A copy of this resolution will be furnished other commercial bodies in cities that would be interested in the development of the Mississippi river and their cooperation will be asked in the matter that it may be given the widest publicity.

In addition the committee will recommend to the Chamber that they ask the representatives of the legislature from this district to introduce a bill covering the proposition of making an annual appropriation for a period of five years in an amount not to exceed \$200 per man to cover the expenses of delegates appointed by the governor to these meetings. This was brought about when it was found that there is no appropriation from which the expenses of these delegates can be paid and the amount is too great to ask a man of ordinary means to assume. In the case of Mr. Elder it is possible that some effort will be made to reimburse him in part or in whole for the expense he incurs. The matter is thought to be of enough importance to this section of the country to warrant the effort at this time and that the benefits to be derived will fully warrant the energy expended.

**Examined Fuse and Is Killed.**  
Armour, S. D., Dec. 2.—A rock blast on the Christ Semmler farm, near Armour, failed to go off, and Semmler stooped over the fuse and prodded it with a stick. He was killed by the explosion.

### EXPECT YIELD IN TARNOWSKI CASE

**British Inclined to Believe Safe Conduct Will Be Granted.**

**IN ORDER TO PLEASE AMERICA**

Lord Robert-Cecil Declares Friendly Feeling for United States Government May Pave Way for Austrian Ambassador's Trip Here.

London, Dec. 2.—A strong impression prevails here that Great Britain will grant the request from Washington for a reconsideration of the refusal of a safe conduct for Count Adam Tarnowski von Tarnow, who recently was appointed Austro-Hungarian ambassador to the United States.

Although stating that he had not yet seen the Washington request, Lord Robert-Cecil, minister of war trade, in discussing the question said: "It must be kept in mind that the question presents two entirely distinct phases. The first is that of belligerents to whom we could not extend favor under any circumstances."

"Other phases concern a friendly neutral, like the United States, to whom we are ready to grant any favor which does not violate our imperative necessities."

"To grant safe conduct to Count Tarnowski, for which there are precedents, may fall within the latter phase."

### CALLING OFF LOAN SURPRISES GOTHAM

New York, Dec. 2.—The abandonment by J. P. Morgan & Co. of the proposed sale of a limited amount of short term British and French treasury bills at the request of the entente allied governments announced here came as a surprise to the financial community.

The announcement, issued from the Morgan officers, stated that the action of the British and French governments was taken out of regard for the attitude adopted against the sale by the federal reserve board. The surprise was heightened by the fact that all arrangements for the offering had been perfected.

Other plans to finance the pressing needs of the British and French governments are already under way, it is understood.

### NO ACTION ON MARINA CASE

**President Seeks Evidence in U-Boat Destruction of Horse Ship.**

Washington, Dec. 2.—Following receipt of a communication from the German government admitting that a German submarine torpedoed the British horse ship Marina, with the loss of six Americans, Secretary Lansing conferred with President Wilson and it was decided no action would be taken by the American government until it could be established definitely whether the Marina was a private vessel or a belligerent transport.

Germany asked the United States for information on whether the Marina was a transport.

As a result of the developments of the day, it was indicated by officials, no action could be expected in the immediate future on the Marina case, admittedly one of the two most serious pending between the United States and Germany.

### State Timber Board Wants Fund \$100,000

(By United Press)

St. Paul, Dec. 2.—The state timber board this afternoon decided to ask the legislature for \$100,000 with which to establish a detective service to watch timber companies from which they get \$1,000,000 annually.

### Armistice Effected Between the Forces

(By United Press)

London, Dec. 2.—An armistice has been effected between the allied troops and the Greek reservists at Athens. A Reuter dispatch says that King Constantine has agreed to deliver six mountain batteries to the allies.

### Wife Found Dead Refused Turkey Husband Arrested

(By United Press)

St. Paul, Dec. 2.—Paul Larpen, son of St. Paul's oldest citizen, was arrested this morning when his wife was found dead in her bed. The husband claimed his wife had suicided, but admitted that they had quarreled because he boycotted turkey for Thanksgiving. They have been married for 29 years.

### Desperate Situation in Northern Mexico Following Capture

(By United Press)

El Paso, Dec. 2.—The situation of the Carranza government in northern Mexico following the capture of Chihuahua City by Villa is desperate. Gen. Gonzales says that if Villa attempts to hold the northern capital he will be able to converge on three sides with heavy forces and annihilate the entire bandit army. The indications are that Villa is ready to move but all channels of escape are reported closed by the Carranza troops.

### First Reports of Villa Killing Denied Americans are Safe

(By United Press)

Washington, Dec. 2.—The state department agents at the border have been informed that all Americans left Chihuahua City before the Carranza-Villista fighting there began. The department announced this afternoon. Villa ordered that no looting be done. Only two Chinamen are known to have been killed.

### American Embargo Subject of Issue

(By United Press)

Washington, Dec. 2.—The American embargo on shipments of arms across the border promises to become one of the live issues between this government and Mexico. The Carranza advisers are displeased at the United States regulations and claim a lack of ammunition cost them Chihuahua City, while the Americans claim they had plenty of ammunition the Villistas took away with them. Ambassador Arredondo called the situation to the attention of Sec. Lansing and if assured that the ammunition will not fall into the hands of Villa more free shipments will be made.

### Government Troops Surround Chihuahua Attack at Daybreak

El Paso, Dec. 2.—Gen. Gonzales, the Carranza commander at Juarez, announces that a heavy column of government troops had reached Chihuahua City during the night and have surrounded the city on two sides. Gen. Murguia had orders to attack the city at daybreak.

### ARTILLERY DUELS

Berlin, Dec. 2.—An official statement says that only artillery duels were apparent on the western front.

King Constantine and the Greek government has formally advised Vice Admiral Du Fournet that Greece has finally and definitely determined to refuse the surrender of arms demanded by the allies.

### Packing up Belongings Preparatory to Leave

(By United Press)

London, Dec. 2.—The Evening News has printed a story that Lloyd George is packing up his belongings in the minister of war's office preparatory to leaving. Several newspapers have asserted that the coalition faces a crisis and likely dissolution. They say the cabinet is too cumbersome for the expeditious conduct of the war. Recently the newspapers opposed Lord Asquith.

### Government Grants Miners an Increase

(By United Press)

London, Dec. 2.—The government has granted the demands of the South Wales miners of a 15 per cent increase in wages. The mines are controlled by a government commission.

### TEUTONS EXPLODE AMMUNITION

### ATHENS IS PANIC STRICKEN

French, British and Italians Are Landed at Piraeus. Two Reports to London Assert—Constantine Is Firm in Attitude Against Entente.

London, Dec. 2.—"Firing has taken place between French sailors and reservists on the slopes of the Acropolis," according to a dispatch to the Daily Mail from Athens.

"Passengers from Piraeus say that when passing the Thessalonian station they witnessed the fighting," the message says. The fighting, according to other information, was between French sailors and Greek troops.

"A panic has begun in Athens. Crowds are rushing through the streets and shops are being closed."

"Two French cruisers have entered Phaleron harbor."

Disembarkation of allied troops at Piraeus, the port of Athens, began at 3 a. m., according to reports from two sources received here.

Meets No Resistance.

The detachment was composed of French, British and Italian contingents, according to a correspondent of the Exchange Telegraph, whose veiled message seemed to indicate that no resistance was encountered. His dispatch was dated Friday.

A wireless message from Athens filed earlier said the landing had been started.

No word has been received as to any change in the attitude of King Constantine. The Greek ruler was represented refusing to grant the demands of Admiral Du Fournet of the allied fleet that all Greek arms should be turned over to the allies.

### MILLION MEN WILL RECEIVE WAGE BOOST

Chicago, Dec. 2.—In predicting the holiday trade in the Chicago territory will reach new dimensions this year the National City bank of Chicago says:

"Wage increases are being announced in various industries, and during the closing six weeks of the year it is probable fully 1,000,000 men will have their pay advanced."

"This movement is of remarkable scope, and reflects the complications that have resulted from the growing shortage of labor and the sensational rise in living expenses."

"In some industries wages have been advanced three or four times within a year. The pay of the clerical forces is being readjusted, something unusual."

"In addition to the full pockets of the wage earning classes the disbursement of special dividends and bonuses has also been a factor in enlarging the supply of money available for Christmas shoppers."

Mint Makes New Record.

Philadelphia, Dec. 2.—With an output of 9,350,000 dimes, 8,266,200 nickels and 28,975,459 pennies in November the local mint established a new record for a single month in the number of pieces coined. The total value of the output was \$1,688,964.50.

Representative C. H. Warner, of Aitkin, has been in conference with A. L. Crocker, Minneapolis, chairman of the Reclamation Drainage & Flood Committee of the All-Minnesota Development association, to call a convention at Brainerd early in January to study and plan for flood protection in Aitkin, Crow Wing, Cass, Beltrami and Itasca counties.

Much of northern Minnesota drainage is wrong. M. D. Stoner, of Brainerd, has asserted that the methods of appraising benefits and costs are wrong. All over the northern part of the state are ditches, but the settlers do not come.

The reclamation committee has secured as consulting geologist, Dr. F. W. Sardeson, who for thirty years has studied the business geology of Minnesota. He knows every township.

The inspiring leader from the first in the work of the reclamation committee has been Governor J. A. A. Burnquist.

### BIG BATTLE DEVELOPED ON MACKENSEN'S FRONT

(By United Press)

Berlin, Dec. 2.—An official statement says that fighting between the Teutonic and Russian and Rumanian forces in the Carpathians and on the Transylvanian frontiers is still progressing with heavy enemy losses, and on Mackensen's front a big battle has developed. The first Rumanian line south of Pietsi has been broken through and defeated. Since yesterday 51 officers and 6,115 men of all ranks have been taken, together with 49 cannon, 100 filled ammunition carts and hundreds of military vehicles.

### RUMANIANS STAND PRESSURE

(By United Press)

Petrograd, Dec. 2.—An official report says the Rumanians are successfully withstanding the Teutonic pressure toward Bucharest. All the enemy attacks have been repulsed, and the enemy driven from the villages of Komana and Gostinir.

### RUMANIANS PUSHED BACK

(By United Press)

Petrograd, Dec. 2.—It is officially admitted that the Rumanians defending Bucharest were pushed back to the river Arges after persistent Teutonic attacks. In the Dobrudja region of Kokolaio the enemy were compelled to retire south from several heights.

### ATTACKS ARE REPULSED

(By United Press)

Amsterdam, Dec. 2.—An official statement says that the undiminished violence of the Russian offensive attacks have been repulsed.

### MANITOBA TO PROBE FOOD

Royal Commission Will Begin High Price Inquiry.

Winnipeg, Dec. 2.—An investigation into the high cost of living in Manitoba will be begun in Winnipeg by P. A. MacDonald, heading a royal commission appointed by the provincial government. Manufacturers, wholesalers and retailers will be called to give testimony regarding high food costs.

Halvorsen, William Merker, Miss Celila Wilcox and H. L. Porache. Health Commissioner Robertson of Chicago, organized among his employees a diet squad of men and women, to live on 40 cents a day each. He said: "The test was of greatest importance to the middle class which lives on salaries instead of wages. The middle-class flat dweller, who tries to keep up appearances, has more trouble making ends meet than the wage earner."

**Man Eating Hermit**

St. Paul, Minn., Dec. 2.—The tales of a rich, but man eating hermit, living along side the Northern Pacific railway tracks in the heart of St. Paul were stopped today when a United Press reporter picked up enough nerve to interview him. The neighbors have claimed for years that the man was wealthy and had treasures buried in his yard. The reporter asked about them and the old gent took him out and showed about one hundred hens, two dogs and a cat and explained that they were all the treasures he had in the world.

The hermits name is Max Schmidt-bauer. He has been a native of Minnesota for thirty-four years, coming from Muenchen, Germany. Six years ago his wife died. He claims his neighbors harried her throwing stones at their home and doing everything they could think of to drive them out. The railroad company is now attempting to purchase his land, Max said.

He also added, "The American people are your friends as long as you have money, but want to have nothing to do with you when you are broke."

Pie Eaters Reconciled

In searching to find out how drugs act upon the body, Dr's have learned that the body acts best without the use of drugs. Medical literature teems with admissions that drugs kill more than they cure.

It is an old superstition that one must take a drug for every ill, but the people are gradually breaking away from it. Have you ever stopped to think, how, and in what way, drugs can cure?

What intelligence is there in a bottle of medicine, or a box of pills? Compare them with nature. How can they possess the knowledge of building a cell in the human body? Can drugs mend broken or misplaced bones in your body?

I say emphatically NO. Nature alone with the aid of a competent Chiropractor can do such work. Investigate and be convinced.

### ATTRACTS ATTENTION

People in all Parts of State Anxious for 1916 Red Cross Campaign to Begin

People in all parts of the state are anxious for the 1916 Red Cross campaign to commence.

Miss Barbara Hazel, the Public Health association's nurse, who is making a tuberculosis survey in Goodhue county, reports the campaign managers have already distributed their supplies in most of the towns, and that the rural teachers are anxiously awaiting the arrival of their seals.

Miss Bessie Burns, who has been working for several months in Koochiching, Hubbard and Beltrami counties, states that all northern Minnesota is going to support the 1916 seal sale very well.

A third nurse doing rural school work in Renville county reports that the county superintendent of schools is going to make a special feature of Tuberculosis Week in all of the rural schools.

The Public Health association's fourth nurse, Miss Frances Cameron, reports that Rice county teams with Red Cross seal enthusiasts. Committees have been appointed in all of the large cities of the county, and all of the rural teachers are preparing to observe Tuberculosis Week.

### D. Y. B. Class

The D. Y. B. class of the Presbyterian Sabbath school had an old fashioned party at the home of Miss Dorothy Wright last evening. The young ladies were dressed in clothes of the old days and took their part with a great degree of cleverness. A delicate lunch was served.

### Ludlow-Davis

Wednesday afternoon at 2 o'clock occurred a very simple but pleasant wedding at the Methodist parsonage at which time Robert L. Ludlow and Esther Julia Davis were united in the holy bonds of matrimony by Rev. F. W. Hill, pastor of the local church. The vows were taken before a bridal altar constructed for the occasion. The beautiful Methodist Episcopal ring service was used. Miss Sadie Davis acted as bridesmaid and George Willis Davis as best man.

The bride was attired in a becoming blue whipped-cord traveling dress. The groom is a machinist by trade and is one of Barrows' exceptionally fine young men. The bride is a charming young woman, highly respected by all who know her. This young couple will make their home on a farm some two miles from Barrows.

The wedding took place the day prior to Thanksgiving and there will be a big Thanksgiving dinner tomorrow at the Davis rural home in honor of the event. They will both have much to be grateful for on this Thanksgiving day. Guests at the wedding feast will be Mr. and Mrs. Richard Ludlow, Walter and Willie Ludlow, Floyd Jeffers, Guy and Josephine Pratt, Mr. and Mrs. Frank Heinze, Mr. and Mrs. Robert Ludlow, Mrs. Ada James, Mr. and Mrs. Quackenbush, John Quackenbush, George Young, Ernest Grimm, Charles, Geo. and Sadie Davis, Mr. and Mrs. A. Dougherty.

Heartily congratulations are extended to this young couple as they start out on their wedded life.

## The Hand that Rocked the Cradle now Makes Shells to Rock World

BY MARGARET MASON,  
(Written for the United Press)

The hand that rocked the cradle Now make shells that rock the world.

For female fingers fashion Almost every bomb that's hurled; And maidens, wives and mothers All stand working, sun to sun, With bits of glittering metal That will kill men when their done Who knows, Oh Tommy Atkins, As you throw that hand grenade Perchance it's one of many That your wife or sweetheart made.

London, Nov. 1 (By Mail).—The early Victorian females, must raise their lily hands from their tatting and cruel work in honor as they look back across the River Styx and see how the hands of their twentieth century female descendants are occupied. I am sure they don't consider it maidenly or ladylike and yet these stanch and willing women munition workers of today are doing cruel work too.

Down at the big arsenal at Woolwich, just thirty minutes from London by train, seventeen thousand women from sixteen to fifty years old at big machines are turning out with fleet and capable feminine fingers bits of glittering copper and aluminum and brass which, assembled into shells, bombs, handgrenades, cartridges and all those deadly and frightful weapons of modern warfare are dubbed munitions.

Not only are the wives, mothers, sweethearts and sisters of Tommy Atkins, the typical working women, employed at this new sort of fancy work but delicately reared and cultured gentlewomen as well are eagerly and efficiently doing their bit.

There is work for every grade and degree of age and mental and physical development. The pay for all is better too than the workers can get in any other sort of a position. It averages from 3 to 5 pounds or \$15 to \$25 per week. One time comfortable English households are plunged into chaos and gloom through the loss of their chambermaids, nursemaids and cooks who hear the siren call of the shrapnel and the shell. Manafons in Mayfair and Park Lane, hovels in Whitechapel and the East End disgorge alike their bits of femininity into the insatiable maw of the government arsenals.

Never have so many fur coats, never has so much jewelry been sold in London as at the present moment and the women munition workers are the busy little buyers. The first thing a poor little erstwhile factory slavey does when she draws her first princely (in proportion) pay check at the arsenal is to treat herself to all the cheap jewelry her little starved feminine heart has craved her whole life long. She may top off with a warm coat of fur and after this reckless spending orgy she is content to settle down and save her salary with the exception of what she spends daily on real food. And my how she does eat!

There are canteens established at the different arsenals where the girls may get the most nourishing food for the cheapest rates. Four meals are served a day, breakfast, lunch a very high tea at a very low price and dinner. There also are lodgings established near the arsenal for all those women who wish to live close to their work. These are called hotels and furnish comfortable and sanitary rooms for a modest sum.

At Woolwich, under the wise and human jurisdiction of Miss Lillian Barker, the government lady supervisor, the women workers are like one huge family or a school for girls. All sorts of things are provided for their amusement and instruction in their recreation hours. There are dancing classes, amateur theatricals and educational courses.

So, although the work is strenuous and the hours long, the effect on the women of this steady work, good pay, nourishing food, clean lodging, fresh air and above all, blessed spirit of independence they have attained, is working miracles with English womankind.

Thanks to their munition work they will be fit physically, mentally and financially to take up the burdens of their poor maimed and broken menfolk after the close of the war. Strange and yet fittingly simple isn't it, that these same deadly bits of metal shining beautifully golden in the sun should be bringing death and destruction and disfigurement to the one, health, prosperity and life to the other.

Twenty-four hours, day after day, night after night, the huge arsenals are busy turning out the munitions that spell trouble for the enemy. Since the days of Eve and Adam woman has been dubbed a trouble maker. Now she is glorying and being glorified in the role, as making

SATURDAY, DECEMBER 2, 1916

Within the next few years Minnesota will receive from the federal government something like two million dollars for good roads, says the St. Cloud Journal Press. The money is largely under the control of the state highway commission, and it will be divided among the counties which put up an equal amount, to be used on through roads, and which must be maintained by caretakers. This is a wise provision. Four million dollars properly expended on main roads will be of immense benefit to the whole state, and once these roads are put in good condition, and properly maintained, auxiliary roads can then receive more attention and in a very short time Minnesota will have magnificent roads in all directions.

The statement published in the Daily Dispatch tonight from the library board committee will clear up any misunderstanding that might otherwise arise regarding their financial ability. The figures published in last night's paper were taken from the records of the city clerk and were correct, but they lacked the explanation that is furnished by the

board today and of which the general public was ignorant. The public library is an institution that all citizens should be interested in and to which they should give their support. There is a diversity of opinion regarding the lighting, and there are many who support the library board in the contention that the city should furnish the lights the same as they do for other public buildings.

The state railroad and warehouse commission has power to determine whether a station maintained by a railway company is suitable and to order a new station built when it deems it necessary, the state supreme court ruled today in deciding in favor of the village of Ada that town's controversy with the Great Northern road.

Ten days from the 28th of November is the limit in which the democrats can call for a recount of Minnesota on the presidential vote. Leading democrats in the twin cities advise the action claiming that the margin is so small that their chances are good, going on the presumption, probably, that the tall goes with the tide.

"Sunk by mistake" does not bring back the lives of innocent parties who had a watery grave. The punishment of the commander of a submarine which did the sinking and the paying of indemnity, does not soften the sorrow. War is hell.

If the establishment of a paper mill at the state reformatory would have the same effect on prices that the establishment of a twine factory at the Stillwater prison did on twine prices the general verdict will be "hasten the day."

Dog fanciers have long noted that when a house-dog begins to get fat and wheezy it is pretty apt to be attacked by a stubborn skin disease. In such a case they cut down the diet and increase the open air exercise, thus relieving the over-burdened body of poisonous substances.

The sin of gluttony is common and therefore much condoned, but like every other violation of Nature's laws has a penalty. Fat inefficiency, sluggish mentality, the redened nose, the pimply face, certain of the chronic skin eruptions, and such fatigue and nervousness are due to the abuse of the digestive apparatus. Rich, indigestible foods in large quantities, highly seasoned to stimulate the jaded palate, are forced into a body already rebellious from repletion. Exercise is largely limited to walking to and from the table and bodily deterioration proceeds rapidly. Many an overfed dyspeptic, suddenly dragged by the stern hand of circumstances from a life of physical ease and plenty and forced to work out of doors, suddenly discovers that his semi-invaldism has gone, that a chronic skin derangement of many years standing has disappeared and that a new vigor and zest of life has been given him.

Not everyone can spend his whole time in the open air but a certain amount of exercise and plain wholesome food in an amount not exceeding the body's needs can be had by almost everyone. Simple moderate diet and exercise make for health. These are not faddish food theories; they are just plain common sense.

CHAMBER OF COMMERCE NOTES

(BY THE SECRETARY)

The annual meeting of the Chamber of Commerce will be held on the second Wednesday in January which comes on the tenth of the month this year. At this meeting, reports of officers will be received and the elective officers and members of the committee on committees will be elected. The elective officers are: president, vice-president and treasurer and the committee on committees, consisting of six members.

Nominations for these offices must be filed with the secretary and may be received thirty days prior and up to the closing day for nominations which closing day will be January 5, or five days prior to the annual election.

Certain signs point to the "breaking of dawn in the east" and that there will be an illumination of the "highways and by-ways" in the wee sma' hours of the night, calculated to spread good cheer and comfort to the masses.

The house and social committee is coming in for much well-deserved commendation on the success of their first bi-monthly dinner, held at the Chamber rooms Tuesday, Nov. 28th. They plan to make this innovation a regular event in club circles and to offer some good programs and an appetizing menu at each dinner.

The cordial co-operation indicated on the part of members of the Chamber of Commerce generally only goes to emphasize the fact that regardless of the croaks of the chronic croakers, this is a most desirable community to live and work in and that the old, time-worn assertion of the pessimist, "It can't be done in Brainerd," is merely the creature of a perverted imagination and not an existing condition.

Brainerd will be well represented at the Benidji meeting of the Northern Minnesota Development association and the delegation will extend an invitation to the association to hold the 1917 fall meeting in this city. The delegation expects to secure this convention for Brainerd.

The next regular meeting of the Chamber of Commerce will be held on Wednesday, Dec. 13, at 8 P. M.

The representation from the range towns at the club dinner was not as large as was anticipated but the right spirit was indicated and everything points to a better understanding and more active co-operation between the business men of this city and the wide-awake towns on the Cuyuna in the future. An improved highway will do much to make this exchange of good fellowship possible.

War Has Reached  
the Pitiful Stage

BY WILLIAM G. SHEPHERD  
Written for the United Press

New York, Dec. 2.—A year ago in the rack of miserable humans I made my way across the wet fields that led to the railway station at Monastir, boarded a train and fled from Monastir, with the Serbians.

"When are the English coming to help us?" the Serbiaps had asked pathetically for many days. But the English did not come. For some mysterious reason they remained in their scores of thousands at Salonika, 200 miles away.

To the north of us, somewhere in the mountains, we knew that the king of Serbia with his court, were fleeing as we were. We knew that

the Serbian people, men, women and children, were moving in a cavalcade of misery from their native land. And the English have not yet come to Monastir. But the Serbians have got there. When the King of Serbia will place his foot on Serbian soil is now asked. There is every indication from news dispatches that a short time the Serbian king will enter his own country.

The cost undoubtedly has been a huge one. There has been no vainer loss of life, aside from that in the Verdun contest than the loss of men about Monastir. It has cost the Bulgars thousands of men to hold Monastir. It took a year to find it was of no strategic value.

Monastir proves that the losses in the great war are becoming more and more futile and useless as the war goes on. The lines do not break, they only sway, but it is useless

The Serbians feel repaid undoubtedly for their sacrifices in regaining Monastir. But the neutral world, where sanity reigns ought to be able to see in the Monastir incident the fact that has long been apparent. Men are dying uselessly by the hundreds of thousands. The war has at least reached the pitiful stage.

## FEDERAL AID FOR GOOD ROADS

The Part the Federal Government has Assumed in the Development of Good Roads Explained

### AT THE N. M. D. ASSOCIATION

At the Dec. Meeting at Bemidji will be One of the Interesting Features of This Section

The part the federal government has assumed in the development of good roads in the United States will be explained to the Northern Minnesota Development association at its meeting at Bemidji December 7th and 8th by Mr. E. O. Hathaway of the office of public roads at Washington.

P. St. John Wilson, assistant director of the office of public roads, with whom the officers of the Development association have been in communication, has definitely announced that Mr. Hathaway, who will be the engineer in charge of the federal district in which Minnesota is included, will attend the meeting at Bemidji.

The relation of the Shackleford-Bankhead bill appropriating federal funds for aid in building highways as to road development in Minnesota is a matter of great current interest. Mr. Hathaway is expected to go into that subject and also to set out the standards of road building which are to be required of states seeking federal aid.

The interest being taken in the coming meeting of the development association indicates an unusually large attendance. The definite announcement that Amendment No. 1 has carried means that the discussion of legislation to be framed under the amendment will be one of the important subjects before the meeting. Senator R. C. Dunn of Princeton, and Senator J. H. Baldwin of Frazee, are on the program for addresses on the good road question, and other speakers will be John Owens of Cook, M. P. Jamar, Jr., of Duluth and Richard R. Price of the University of Minnesota.

The potato exhibit to be held in connection with the meeting will draw exhibits from all parts of northern Minnesota and will be of great interest to those who attend the meeting.

## ELKS LODGE OF SORROW SUNDAY

Elks Requested to Meet at Their Hall at 2:30 Sharp to March in a Body to Opera House

### LARGE ATTENDANCE DESIRED

W. S. McCormick, of Duluth, Will Deliver the Address of the Day, Fine Musical Program

Annual memorial services of the Brainerd Lodge No. 615, B. P. O. E., will be held at the Brainerd opera house on Sunday, December 3, at 3 o'clock in the afternoon.

The committee in charge was very fortunate in securing the services of a brother Elk, W. S. McCormick, of Duluth, to deliver the address and have arranged a musical program that it would be hard to equal.

A good attendance is very much desired. Members are urged to meet at the hall at 2:30 sharp and march in a body to the opera house.

These services are public. All are cordially invited to attend them.

### WHAT'S THE REASON?

Many Brainerd People in Poor Health Without Knowing the Cause

There are scores of people who drag out a miserable existence without realizing the cause of their suffering. Day after day they are racked with backache and headache, suffer from nervousness, dizziness, weakness, languor and depression. Perhaps the kidneys have fallen behind in their work of filtering the blood and that may be the root of the trouble. Look to your kidneys, assist them in their work—give them the help they need. You can use no more highly recommended remedy than Doan's Kidney Pills—endorsed by people all over the country and by your neighbors in Brainerd.

Mrs. T. F. Mooney, 209 Gillis St., Brainerd, says: "I have known about Doan's Kidney Pills for some time. I procured this medicine at H. P. Dunn's drug store and it certainly was of great benefit to me."

### CASE DISMISSED

Charge Against W. D. McKay of Having Refused to Comply With Orders Fails Flat

A short hearing in municipal court Friday before Judge Gustav Halvorson and the charge against W. D. McKay fell flat and was dismissed by the court.

It was charged by Chris Johnson, in his complaint as dairy and food commission inspector, that Mr. McKay was the owner of a dairy barn in the south half of the southwest quarter of section 33, township 134, range 24, that he had been notified October 28 to put the dairy barn in clean, sanitary condition within ten days and that he had failed to comply.

At the trial of the case late Friday afternoon it was proven that the farm and barn had been rented for some time to tenants, that Mr. McKay was not maintaining or operating a dairy barn.

## McRAE SUES FOR ROYALTY SHARE

Duluth Man Alleges an Interest in Rich Mining Lands of Thomas Feigh and P. Hammel

### ON THE NORTH CUYUNA RANGE

McRae Claims he Induced C. M. Hill Lumber Co. to Develop Property Hill Crest Mine on Same

C. J. McRae, of Duluth, through his attorneys, Fryberger, Fulton & Spear, has commenced suit against Thomas M. Feigh, Patrick Hammel, C. M. Hill Lumber Co., Cuyuna Realty Co. and the Hill Consolidated Mines Co., asking for an accounting of all royalties, for the seventh of all royalties received by Feigh and Hammel in certain rich north Cuyuna range lands described as the east half of the northeast quarter, lot 6 and the northeast quarter of the southeast quarter of section 9, and the south half of the northwest quarter and the north half of the southwest quarter of section 10, township 46, range 29. On part of this land is the Hill Crest pit mine and on another plat is the Cuyuna Realty mine being opened up.

McRae claims the land was originally bought at \$10 an acre and Feigh and Hammel desired to lease it for exploration and development, the legal title being in Feigh's name. On Sept. 18, 1908 McRae alleges he entered into an agreement with Feigh and Hammel giving him exclusive right to dispose of the option and to get as his pay all royalty in excess of 25 cents a ton.

McRae then alleges in his complaint that he got Jones & McLaughlin interested at 30 cents a ton royalty, but the defendants refused to make an option owing to refusals they claimed they had given to other parties upon the said property.

McRae alleges he continued negotiations, secured another lessee at 30 cents a ton, E. C. Hollidge, acting in the interests of the Soo line. Feigh and Hammel, the defendants, McRae alleges, refused to exercise the option according to the agreement unless McRae would accept \$5.00 as full compensation for services and would waive his 5 cents a ton royalty. McRae refused and the option was not consummated.

The agreement between McRae and the defendants, McRae alleges, was then modified that he should have exclusive right to secure a purchaser or taker of an option upon the same terms and conditions, except that McRae should receive for his share of services all sums in royalty in excess of 30 cents a ton.

McRae alleges he then secured the C. M. Hill Lumber company, at 35c a ton and the lease was made May 24, 1910. Later a modified lease was entered into. The tonnage provided for a minimum of 45,000 tons the first year, 65,000 tons the second year 85,000 tons the third year, 100,000 tons the fourth year and 150,000 tons annually thereafter.

The complaint recites that the property was shown to contain 10,000,000 to 15,000,000 tons of ore and McRae now sues for his 5 cents a ton royalty. He asks for an accounting, for a judgment against Feigh and Hammel for one-seventh of all royalties received and asks for a receiver.

## DISTRICT COURT PROCEEDINGS

Case of Gunderson vs Corey is Dismissed on Motion of Defendant, No Negligence Shown

### CERIL BOURASSA SENTENCED

Fined \$50 and Costs and 30 Days—Case of Johnson vs Botz is on Trial in Afternoon

In district court the case of Charles J. Johnson vs A. M. Botz is on trial. This is a lumber case wherein Johnson sawed some logs for Mrs. Botz and she alleges that the sawing was not done according to contract. Johnson has a small, portable sawmill at Pine River and farmers hauled their logs to his mill. Time, it is alleged, was the essence of the contract, as the defendant could not build his new home until the lumber was turned out.

The defendant's attorney is Judge W. A. Spurrier, of Pine River, formerly a district judge of Des Moines, Iowa. His court reporter at that time was E. L. Forbes, now a practicing attorney of Pine River. The attorney for the plaintiff is Frederick J. Miller of Pine River.

Johnson is suing for a balance alleged of \$82 and the defendant has a \$300 counterclaim.

The personal injury case brought by young Robert Gunderson against Frank D. Corey and others and the Little Giant Amusement Co., Gunderson alleging he was hit in the knee by a bullet from a shooting gallery of the amusement company playing at Ironton, was dismissed following the motion of Attorney D. B. McAlpine, of the defense, that the plaintiff had not established any negligence. Testimony showed there was conjecture about a bullet and where it came from, the doctor testified he had not located the bullet or X-rayed one.

Ceril Bourassa, a wholesale liquor house man charged with selling a quart of whiskey to Ralphord James, was sentenced by Judge W. S. McClenahan and was fined \$50 and costs of \$17.35, and 30 days in the county jail, and in default of payment of the fine, was to receive an additional 30 days. He paid fine and costs.

### STATEMENT TO THE PUBLIC

The Library Board of the City of Brainerd, held a meeting at the Library rooms, Friday, December 1, 1916. A committee was appointed to formulate and present the following statement to the Brainerd public in order to explain in detail the income that the Library receives from the one-half mill tax levy as prescribed by the Charter. Against this income are charged the various amounts that are paid out for the actual running expenses and the up-keep of the library. The public will notice in this statement that there are no funds available for that purpose.

#### Annual income for 1916:

RECEIPTS	
March 31	\$ 236.25
Aug. 21	543.69
Dec. 7	384.08

Total \$1164.02

DISBURSEMENTS	
Librarian's salary	\$ 480.00
Janitor	240.00
Fuel	200.00
Rebinding books	50.00
Insurance	36.50
Supplies and stationery	24.91
Repairs and improvements on building	25.80
Freight, postage and express	23.88
Magazines and periodicals	54.10

Total \$1135.19

Balance \$ 28.83  
At the time that the bequest of \$1000 to the library was made by the late George W. Holland, this amount was designated specifically to be used in the purchase of necessary reference books for which the library had no funds. In the amount as given in last night's Brainerd Daily Dispatch as taken from the books of the city clerk, there was included the sum of \$150.30 which is the balance left of the Holland fund. Against this, the book committee has already purchased books approximately to that amount. This fund is now exhausted. As there seems to be some misunderstanding as to the status of the Brainerd public library, building, and grounds, and its connection with the city, we present these facts: The lots on which the library building is erected was deeded to the city of Brainerd. The money which built the library was donated by Andrew Carnegie directly to the city of Brainerd. The charter under which the library board is created and made a distinct department of the city was adopted by the voters of the city of Brainerd. The only conclusion at which one can arrive is, that the library grounds, building and library board as constituted, the latter is appointed by the mayor of the city, is a department of the city and has the same standing as any other city property or building. For this reason the library board has always taken the stand that lights should be furnished this department the same as any other department of the city without any charge.

There is no city of similar size in Minnesota that maintains a public library that pays so small a salary for their librarian as Brainerd. Brainerd should have a trained librarian whose salary would command a sum much larger than the present incumbent has received. It is only by the strictest and most rigid economy that the library board members have succeeded in meeting expenses from the income derived.

We consider that a library, to be of value to the community in which it is located, should have a fund at its disposal of NOT LESS THAN \$500 PER ANNUM FOR THE PURCHASE OF BOOKS and the replacement of those destroyed by usage.

Respectfully submitted,

## Santa wants to leave a Victrola at your home this Christmas

Victrola IV, \$15 is shown here

This store is Santa's Victrola Headquarters. The old gentleman is firmly convinced that every home should have a Victrola, and we agree with him. So if you'll come in and select the Victrola you want, we'll pass the good word to Santa and have him stop around at your house on Christmas Eve with the exact instrument of your choice.

You can get a Victrola at \$15, \$25, \$40, \$50, \$75, \$100, \$150, \$200 or \$300 to suit your taste and need.

And no matter which you get, from the smallest to the largest, it is always the supreme musical instrument of the world, and it brings you the true art of the world's greatest singers, musicians, comedians, bands and orchestras.

And if Christmas shopping has been "too much" for your pocketbook, so that you feel the need of easy terms, (mighty easy they are, too) just mention the matter to us and you can get your Victrola and enjoy it without the slightest inconvenience on the "money end."

## Pullman or Freight?

No one would think of riding in a freight car if he could enjoy the comfort of a big, comfortable easy riding Pullman parlor car.

So with automobiles. Most of the popular priced cars ride like freight cars. This is due to the old fashioned type of spring.

Many manufacturers still continue to use them.

The Overland does not. The 75 B Overland has the latest type of cantilever shock absorbing springs. As a result it is one of the easiest riding cars in the world. One demonstration will prove this. \$635 f. o. b. Toledo.

**INTERVENTION BY U. S. LOOKED FOR**

Washington Officials Believe Action May Be Compelled.

**FALL OF JUAREZ EXPECTED**

Threat to Border City, Across From El Paso, Likely to Force American Troops to Take Field on Mexican Soil to Combat Outlaws.

Washington, Dec. 2.—The capture of Chihuahua by Villistas, information of which was received by the state department through consular dispatches, brought American intervention nearer than it has been at any time since the fight at Carrizal, in the belief of officials here.

Long conferences were held by President Wilson, Secretary Lansing and Secretary Baker, but the strictest silence in regard to administration plans was observed.

It was intimated strongly, however, that if, as a result of the capture of Chihuahua, the city of Juarez, just across the line from El Paso, Tex., should fall into the hands of the Villistas or become the scene of fighting, the United States might take possession of Juarez at once and probably would move troops down the railroad toward Chihuahua City in an effort to destroy the main Villista army.

The source from which the Villistas obtain their arms and equipment is still a puzzle both to administration officials and Carranza representatives here.

Many officials believe Juarez is Villa's real objective and that in any case he must take that city if he expects to hold Chihuahua. The possession of Juarez by the Carranzistas would be a constant menace to Villa.

**VILLA ASSERTS HE WILL KILL FOREIGNERS**

Juarez, Mex., Dec. 2.—Villa bandits were reported to be loading two trains with loot from the stores and private residences of Chihuahua City and preparing to follow these trains west on the Mexico Northwestern railroad, according to a message received at military headquarters from General Ozuna's scouts at Sanz.

This news was taken at headquarters to indicate the intention of Villa to evacuate the city after looting it. Villa made a speech against foreigners in Hidalgo Plaza, following his occupation of the city, a Chinese farmer and merchant who left Chihuahua City said upon his arrival here.

In his speech, Villa warned all residents of the city against hiding any foreigners in their homes and declared he intended to kill all.

The Chinese merchant said he fled before a detachment of Villa soldiers and escaped to Nombre de Dios, near Chihuahua City.

He confirmed the killing of many Chinese residents of Chihuahua City, and said he saw at least fifteen dead in the streets near where he was hiding.
